Requirements Defects & Waste

- Requirements defects are #1 reason projects fail
- Traditional projects specify too many requirements
- ☞ More than 65% of requirements are never used at all

Defects
- Requirements 47%
- Design 28%
- Implementation 18%
- Other 7%

Waste
- Never 45%
- Rarely 19%
- Sometimes 16%
- Often 13%
- Always 7%
